Wednesday – 1st June, 2011

Week 6 - Term 2

Dear Parents/Caregivers,

Unfortunately the weather is not being kind to us. Yet again our cross country has been postponed. We will run this next term now and will look for a date soon.

Also our Athletics Carnival has had to be postponed as well. Our back-up carnival date is Wednesday 8th June – all other arrangements for transport will remain the same.

On the day of the carnival, students will be required to bring their own lunches, as only snacks will be available for purchase at the venue. Hopefully sunny days will visit us next week.

Miss Price ran a great workshop for parents in Monday giving them the opportunity to see how students use new methods to help with mental computations (additions / subtractions). The next parent session (a repeat performance) is on Tuesday 14th June at 5:30pm till 6:30pm in the Library. We hope to see more than 4 parents.

Our school has had a small outbreak of headlice. Please be relentless and vigilant in checking your child’s head at least once a week and treat if necessary. We need to break the cycle. If your child receives a headlice note it means there has been a case reported in that class. Please check carefully.

Staff are working on reports now in readiness for them going home at the end of week 9. Dates for interviews have been set for each class. Notes to request an interview time will go home next week. Reports will go home with students work samples in our fabulous green presentation folders. If you have not paid for a folder, reports and samples will be sent home in a plastic sleeve.

Interview schedule is:-

Comb and conditioner method

Head lice breathe through small openings along their abdomens called spiracles. Coating hair in something thick and slimy like a white hair conditioner makes these openings close over, shutting down the louse’s breathing for about 20 minutes. Although the louse will not die with this method, it does slow it down so that you can comb them out. You can do the following:

- Sit your child in a low position in front of you and put on a video or DVD for your child to watch while you work.
- Wrap a towel or kitchen paper around your child’s shoulders to catch conditioner spill.
- Apply lots of conditioner to the scalp and massage it through all hair shafts. Lice live close to the scalp, so make sure that you cover the hair shaft close to the scalp. Combing will spread the conditioner onto the rest of the length of hair. Every hair has to be coated to ensure it reaches the lice.
- When the hair is detangled and manageable, use a fine lice comb to comb out each section several times.
- After each comb out, wipe the conditioner on the paper towel. If the child has had lice, you will see them on the towel.

To prevent getting head lice

- Tie your child’s hair back - Tell your child not to share hats or clothes - Check your child’s hair regularly.

If your child has head lice

- Continue to send your child to school
- Inform the school so they can inform others to check their children’s hair, your child does not have to be identified
- Do not use household chemicals (such as kerosene or methylated spirits) to treat head lice.

Anyone can get head lice and it is common for school children to get head lice at some time. Head lice can spread when children’s hair comes into contact with one another. Although itchy and annoying head lice do not harm your child.

GARDEN SUBURB PUBLIC SCHOOL - SCHOOL HALL - OFFICIAL OPENING CEREMONY

Welcome by the School Leader- Jessica Guiney
Acknowledgement of Country – Charlie Haylock
Introduction of Special Guests – Jayden Webb
